**Every student has access to a Board-Certified Behavior Analyst (BCBA) and their individual Behavior Technician (RBT)**

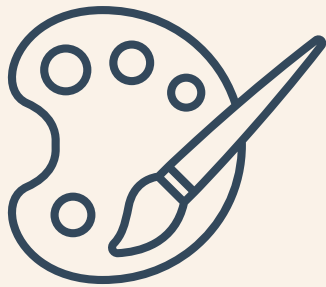

# What Makes Us Different

- Small Class Sizes (5-10 students per class)
- Scientifically-Backed Curricula (Connecting Math Concepts, Reading Mastery, Edmark, etc.)
- We work directly with Autism Solutions to provide 1 to 1 behavioral support to each kid. BCBAs and RBTs help each child learn behavioral skills needed to be successful in the classroom.

# Autism Solutions Academy Scholarship

The Carson Smith Scholarship is appropriated state funds that are used by the State Board of Education. The scholarship allows students with significant disabilities to receive funds to cover a portion of tuition for a private school that can better cater to the students special needs.

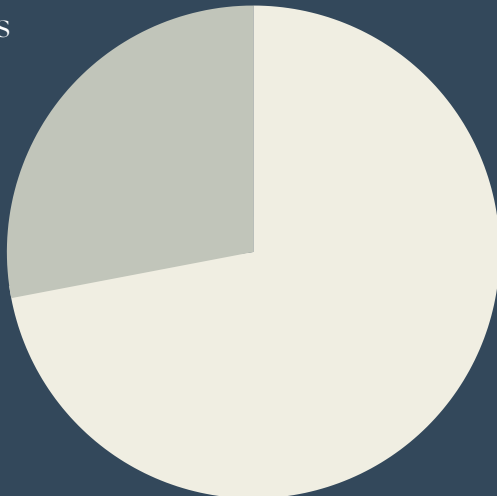

---

The Autism Solutions Academy Scholarship Fund helps to bridge the gap between the Carson Smith Scholarship and the balance of tuition costs. The tuition covers the cost of curricula, classroom teachers, classroom supplies, and community activities.
